“ Kathy & David, It is with such sadness in my heart to be here in this moment writing to you. A day that I never wanted to come to life. Without a doubt, as I would say "Mother" your mom and also "my mom" in her own way. I am blessed to have countless memories of her. We've shared laughter, crying, long walks and talks. She taught me so many things .....mainly how to be strong as a woman and to be independent. From cooking, to sewing to gardening, there wasn't much she couldn't do. May God scoop you up and wrap his loving arms for strength during the days ahead. I do know this, she would not want us to be sad but to celebrate her life through precious memories. Love you all so very much!

“ So sorry Kathy, Howard and family to hear of her passing. I guess the last time I saw her was a Ima Nell's funeral. She was such a dear lady with a lot of spunk. I come down to the house when she lived the almo highway cant even think what the highways is called and went down to her sewing house and set there and talked while she sewed making dresses for weddings pagents she was a wonderful seamstress.I know she's having a wonderful reunion with Glen and Randy bless her heart.I love this picture of her it was taken when we did our Independence picture book cant think now how many years ago that's been. She always sang in the choir and supported Independence she would work so hard when we would have our live Nativity scene's at Coles by getting all the costumers together .She was a force to be reconed with when she was fixing costumes.She will be missed I loved her very much yall are in my thoughts and prayers
